Institute for Transport and Logistics Management

## Lecturers

**Sebastian Belz** is working since 2010 as Secretary General of the European Platform of Transport Sciences (EPTS Foundation e.V.), a multinational, multimodal non-profit organisation, which aims to better connect transport scientists from all over Europe. Travelling to all the EPTS countries, meeting the members, organising of and presenting at their congresses and conferences are main tasks of his job. He is used to work and live on the train throughout more than half of the year - and he loves it. Sebastian (52) is a spatial engineer, married and has two grown-up children.

My name is **Victoria Biber**. My background is in law, specifically human rights law. I am responsible for EU and international affairs at the Austrian Disability Council and also serve as a board member of the European Disability Forum. Additionally, I lead the Competence Team on Digitalization at the Austrian Disability Council.

(c) Katharina Herzog

My name is **Marija Binova**. I have been working in counseling at the Austrian Association Supporting the Blind and Visually Impaired for four years. In addition to my counseling role, I facilitate awareness workshops focused on interacting with visually impaired and blind individuals. My primary objective is to eliminate barriers and promote inclusivity. This commitment drives my passion for this important work.

Institute for Transport and Logistics Management

	<p>Prof. <b>Valerie Bojku</b>, PhD. Cand - Bibaj is an engineer specializing in transportation and mobility, with extensive experience in the management and development of railway infrastructure in Kosovo. She is currently a Lecturer at Tempulli College, while until July 2024, she served as the Acting Director of the Technical and Traffic Department at INFRAKOS and was a member of the Project Implementation Unit (PIU). She has held various leadership and consulting positions, contributing to the strategic planning and development of railway transport. With a rich academic career, she has served as an assistant and lecturer at various universities in Kosovo, covering subjects such as Urban Mobility, Public Transport, and others. As the author of several scientific publications and an active participant in international conferences, Valerie is dedicated to the sustainable development of transportation.</p>
 <p>(c) Katharina Herzog</p>	<p><b>Stefanie Chwalko</b> is part of the project team of the Austrian Association in Support of the Blind and Visually Impaired based in Vienna. With her knowledge from her degrees in "Communication Economics" – "Marketing, Event and Project Management &amp; "Tourism Leadership" - Management, Entrepreneurship, Design Thinking and through her several years of professional experience in the field of event management and project management, she implements various projects together with the project team specializing in accessibility and assistive technologies for people with visual impairments.</p>
	<p><b>Lorenzo Freire--Stella</b> completed his studies in Transport Geography and Planning in CY Cergy Paris University. He has been involved in many international projects which allowed him to compare accessibility conditions across Europe and participated in the first edition of the BFPT Summer School in 2024 in Maribor, Slovenia. Lorenzo research interests' are looking toward European Transport Policies, long-distance rail travel and transport-urbanism interactions.</p>

Institute for Transport and Logistics Management

	<p><b>Daniela Fassl</b> has been working as an Assistant to the Executive Board at the Austrian Association in Support of the Blind and Visually Impaired since October 2021. In this role, she supports the management team with administrative tasks, coordinates meetings and projects, and ensures smooth communication within the organization. Daniela Fassl dedication and organizational skills contribute significantly to the efficient functioning of the society and its initiatives.</p>
	<p><b>Elmar Fürst</b> is an Associated Professor at the institute of Transport and Logistics Management of WU Vienna (Vienna University of Economics and Business). He is also Chairman of the Board of the Austrian Association Supporting the Blind and Visually Impaired, Austrian largest and oldest Association in this domain. His research interests include sustainable mobility and transport as well as accessibility. As a recognized expert, he regularly advises public authorities, mobility providers, and civil society organizations on issues related to accessibility, universal design, and the future of inclusive transport. His contributions have had a lasting impact on the development of accessible transport strategies in Austria and across Europe.</p>
	<p><b>Klaus Höckner</b> is CEO of the Austrian Association Supporting the Blind and Visually Impaired /Access Austria , based in Vienna. It is a leading privately funded organisation helping visually impaired persons in Austria, existing since 1935. He is member of the board of the Austrian Disability Forum, in IAAPs Global Leadership Council and in several conference boards (ICCHP, AAATE). He works together with Access Israel and Zero Project, acting as an Ambassador in this world wide-initiative. Klaus has an ICT background, working for nearly 20 years in ICT and standardisation in the context of european (i.e. in the European Disability Forum EDF) and inter/national level (CEN, CENELEC/ISO/ITU). From 2018 to 2020 he was a member of the High Level Expert Group on Artificial Intelligence at the European Commission. Recently he was selected as Expert of the Accessible EU platform. His mission is to make the world accessible for all.</p>

Institute for Transport and Logistics Management

**Werner Leber** is a trainee lawyer in Vienna. He worked as a research assistant for the Faculty of Law in Vienna. As part of his studies in business administration, he specialised in transport and logistics. He supports the Austrian Association in Support of the Blind and visually impaired as a volunteer.

(c) Katharina Herzog

**Daniele Marano** works at the Austrian Association in Support of the Blind and Visually Impaired as a project manager specializing in accessibility and assistive technologies for people with visual impairments. He holds a master's degree in Psychology from the University of Padua (Italy). Being visually impaired himself, he is a strong advocate for the potential of information and communication technologies and shares his expertise through lectures and training sessions. He is also a member of the Austrian Standards Institute's committee for assistive devices for the blind and barrier-free planning and construction.

(c) Hilfsgemeinschaft/Schedl

**Michele Macura** has been blind for around eleven years, after having lived with a visual impairment since the age of 22. Professionally, he initially worked as a programmer in the field of internet technologies. Over time, his interest increasingly shifted toward issues related to accessibility and inclusion. Today, Michele Macura is actively involved with the "Association for the Blind and Visually Impaired," particularly in the technical field of digital accessibility. He tests apps and websites for their accessibility for blind and visually impaired individuals, regularly gives talks at schools about life with visual impairment and blindness, and helps those affected to use smartphones and other digital tools safely. His commitment is driven by personal motivation and a desire to make the digital world more accessible for everyone.

Institute for Transport and Logistics Management

	<p><b>Alexandra Onea, MSc.</b> is a member of the project team at the at the Austrian Association in Support of the Blind and Visually Impaired. With a background in business studies, she brings expertise in strategic planning and analysis, as well as knowledge in the field of accessibility. Her work focuses on creating inclusive environments and removing barriers for people with visual impairments – whether in physical spaces, digital tools, or public services.</p>
	<p>MSc. <b>Sara Fusha Osmani</b> (COO at Tempulli College) is a dynamic and results-driven professional with extensive experience in marketing, project management, and public relations. Over the years, she has led diverse initiatives across education, innovation, and entrepreneurship—from founding ARTOys, a brand dedicated to educational wooden toys, to managing large-scale international projects at Tempulli Academy, where she serves as Chief Operating Officer. A passion for strategic communication, digital innovation, and impactful project execution has shaped her career. She has secured and managed grants from international bodies such as Erasmus+, the EBRD, and the Kosovo Challenge Fund, leading projects focused on education, quality assurance, and institutional growth. Sara takes pride in organizing conferences, campaigns, and public events that spark dialogue and bring lasting value to communities.</p>
	<p>Hi, I'm <b>Christian Platzer</b>. I have been physically impaired since my birth and I have to use a wheelchair. Nevertheless I work successfully in the project development apartment of the association for the Blind and the Visually impaired and also as a translator and interpreter, that means I have a lot of experience with public transport because I'm always on the move. I'm looking forward to share my experience with you</p>

Institute for Transport and Logistics Management

**Stefan Schönfelder** has been working in the “Stabsstelle Barrierefreiheit” (Task Force Accessibility) of the Federal Ministry of Innovation, Mobility and Infrastructure (BMIMI) since August 2023. Before joining the ministry, he has spent most of his career as a mobility researcher at various research institutions in Austria, Switzerland and Germany. Dr. Schönfelder graduated as an urban planner from TU Dortmund (1999) and completed his doctorate at the ETH Zurich on the regularities of travel behaviour in 2007. He uses the wheelchair permanently after an accident in 2003.

Prof. dr. **Senka Šekularac-Ivošević** is an associate professor at the University of Montenegro. She is an experienced researcher specializing in maritime port and shipping marketing and human resources. Her expertise includes marketing strategy, maritime market research, and maritime crew resource management. Currently, she serves as the vice dean for international cooperation, head of the Maritime Management and Logistics Department and coordinator for the IMO Course on Leadership and Teamwork at the Faculty of Maritime Studies Kotor, University of Montenegro.
